CM&E

WHY EAC/CME?

As one of the founding sponsors of the WSIB Safety Group Program, we want to ensure that your organization is rewarded for incorporating prevention measures into your daily business activities.

- We have been sponsor of the WSIB Safety Group Program since 2000
- Our Safety Group Resource section offers over seventy health and safety standards, policies and procedures to provide you support.
- Our Safety Group Specialist offers over 30 years experience in industry, with organizations of all sizes, both unionized and non-unionized, from large to small companies with extensive health, safety and claims management experience

TOP 3 REASONS TO CHOOSE EAC/CME SAFETY GROUP PROGRAM

1. Enhance your knowledge of your rights and obligations as an employer
2. Reduction in lost time injury frequency and severity rates
3. ·Additional WSIB Rebate

TESTIMONIES FROM PARTCIPANTS

"Joining the EAC/CME Safety Group has been very valuable for us. We've gained a lot of knowledge through the sharing, guest speakers and other resources made available. Being a smaller contractor, the rebate of over $6,600 sure was appreciated too. We'd recommend this Safety Group to any firm who'd like to develop and improve their H&S program."

- Mike Firmin, Swift Railroad Contractors

"The EAC Safety Group has helped us to achieve compliance with the Ministry of Labour (MOL) requirements and further strengthen our existing program through exposure to best practices."

- Marjorie Skalin, Knoll North America Corp

"When WSIB introduced the pilot Safety Groups Program in 2000, six of our facilities signed up. Over the years, we have valued the benefits from participating in the EAC Safety Group. This year, we signed up 15 of our facilities. The Safety Groups Program has definitely been effective in providing a disciplined framework to implement and continuously improve our safety program initiatives. The guest speakers at meetings and the opportunity to network have been invaluable. My overall experience with the EAC Safety Group has been very good."

- Teresa Wong Tooze, Maple Leaf Foods Inc
