

WANT TO FURTHER YOUR  
KNOWLEDGE APPLYING  
CORE **LEAN** TOOLS?

# LEAN LEVEL 1

YELLOWBELT

## OVERVIEW

This LEAN certification program is delivered by manufacturing Industry leaders at a variety of locations, with the focus on understanding the practical application of the LEAN tools and concepts.

Structured into six modules, participants will learn when and how to apply the core LEAN tools to problem solve and improve processes in the workplace. Participants are encouraged to implement the concepts learned during group simulations and practical assignments.

## LEARNING OBJECTIVES

At the end of the program, participants will have the knowledge, skills and confidence to apply the basic LEAN tools and contribute fully to the problem solving or continuous improvement activity within their organization.
