Intro to Lean

Module 2
Value Stream Mapping (VSM)

Module 3
5S Methodology

Module 4:
Standardized Work

Module 5:
Tools for Employee Engagement

Module 6:
Hands on 2-day simulation,
group presentation & Graduation

INNOVATION - MANITOBA

LEAN LEVEL I - YELLOWBELT

WANT TO FURTHER YOUR KNOWLEDGE APPLYING CORE LEAN PRINCIPLES?

OVERVIEW

This Lean certification program is delivered by manufacturing industry leaders at a variety of locations with the focus on understanding the practical applications of Lean tools and concepts.

Structured into six modules participants will learn when and how to apply the core Lean tools to solve problems and improve processes in the workplace. Participants are encouraged to implement the concepts learned during group simulations and practical assignments

LEARNING OBJECTIVE

At the end of the program, participants will have the knowledge, skills and confidence to apply the basic Lean tools and contribute fully to the problem solving or continuous improvement activity within their organization.

WHO CAN BENEFIT?

Anyone currently engaged in Lean and continuous improvement efforts, and any employees who will participate in these efforts going forward.

COST

Price includes materials, lunches and resource manuals

\$1,685+ GST/ person (CME Member)

\$2, 335+ GST / person (Non-Member)

*Payment must be made in advance of course start date.
