

# CME & E

## PROBLEM SHARING

Group experiential problem solving and advice.

## SHARED BUSINESS & MARKET INTELLIGENCE

Network with other executive leaders and subject matter experts.

## STRATEGIC BEST PRACTICES

See first-hand what your peers are doing to innovate and compete, and discuss key business issue resolution strategies.

## CONNECTION

# Manufacturers' Executive Councils (MECs)

Manufacturers' Executive Councils (MECs) are exclusive groups of 8-10 business owners, CEOs and general managers; exclusively from non-competing CME manufacturer member companies. Members meet one half day per month in a facilitated forum to share ideas, learn from each other's experiences and solve problems through peer-group mentoring. These unique forums increase profitability and competitiveness by drawing on the strengths of experienced, like-minded owners and CEOs.

## FOCUS ON KEY ISSUES

- Leadership skills
- Bottom-line improvement tactics
- Marketing and sales enhancement
- Human resource issues
- Productivity

## PEER SUPPORT

- Align yourself with other manufacturing leaders who can help sharpen your leadership and management skills and coach your peers in the same way
- Challenge your management expertise through real-time business issue discussion, within your own organization and those of your peers
- Broaden your perspective and develop your critical thinking, communication and leadership skills
- Enjoy the freedom and flexibility of shared experiential learning without pausing your career
- Increase your skills and mindset to lead, while building new networks and business relationships
- Align yourself with industry leaders. Don't miss your chance for a seat at this table

## FORMAT & ELIGIBILITY

- This forum meets once per month (Sep – June) for 10 half days
- Exclusive to CME manufacturer members from non-competing companies
- Individual participants must have full corporate-enterprise accountability (CEOs, General Managers)
- Minimum \$3M in annual revenues
